Slate Light Grey

Un grigio chiaro e sfumato, che interpreta la neutralità come scelta progettuale consapevole. Slate Light Grey stabilisce un dialogo tra luce e ombra, conferendo profondità alle superfici. È il colore ideale per spazi che vogliono esprimere raffinatezza e modernità, adattandosi a molteplici contesti architettonici.

A pale, subtle varied grey, an emphatic statement of neutrality as a design choice. Slate Light Grey establishes a dialogue between light and shade and bestows depth on surfaces. It is the ideal colour for interiors that wish to convey a mood of refinement and modernity, and fits well into many different architectural contexts.

Piatto Doccia Termoformato

Il piatto doccia termoformato crea un'elegante continuità visiva tra il rivestimento delle pareti e il pavimento, rendendo l'ambiente bagno armonioso e uniforme. Le lastre in gres porcellanato vengono termoformate per creare superfici continue, assicurando la corretta pendenza per il deflusso dell'acqua. Si possono installare a filo pavimento o in appoggio, con scarico centrale circolare. È disponibile in diversi formati standard, ma è anche configurabile in modo personalizzato.

Thermoformed Shower Tray

The thermoformed shower tray provides elegant visual continuity between the wall covering and the floor, giving the bathroom a stylish uniformity. Porcelain stoneware slabs are thermoformed to create continuous surfaces and provide the right slope to ensure water drainage. They can be installed either flush with or on top of the floor, with circular drain in the centre. Trays are available in various standard sizes but can also be customised.
